June 2015

Dear Friends:

Thank you for your prayers and support for Watchmen Radio Ministries International. Your partnership in reaching the lost with the gospel is greatly appreciated.

The above pictures were taken on our March trip to Asia where we visited our partner ministries in the Philippines, Nepal, and India. We visited several mission churches in the Philippines and also the radio station from which our programs are broadcast. In Nepal, we visited our partner ministry's studio where our programs are produced and processed. In India, we visited our partner ministry's studio and churches. We were very impressed with our partners in these three countries in Asia. We want to continue to work with them and support them in their important work of reaching the unreached in Asia with the gospel.

After we left Asia, a large earthquake hit Nepal and destroyed some of the sites that we saw while there. Please pray for our coworkers there as they continue their ministry in the midst of difficulties. We hope that all of our programs produced there will continue.

We have added new programs to our shortwave broadcasts and also for TWR 360, our internet outreach on Trans World Radio. Please pray that these new programs will reach many with the gospel. We have also added two FM broadcasts in Nepal.

We were blessed to meet several of the mission pastors in the Philippines who work with Pastor Ferdinand Duyaguait, our partner there. We hope to help more in the ministry there to the mountain people on Negros Island. Please pray for that ministry which not only includes two radio broadcasts in two languages but also church planting among the mountain people.

We would also like to help Pastor Samson Roberts in India in his ministry of training missionaries to reach the unreached in India. His goal is to train and send out at least a hundred missionaries every year to the peoples of India. Pray that his goal will be reached. Please prayerfully consider making a [donation](#) to reach the unreached with the gospel.

Yours in His Service,
Alex Dodson, President
